Thank you for sharing that, Shreya! It sounds like you have a diverse background. Let's try to focus a bit more on your experience in annotation. What specific skills do you think are important for someone in a junior annotation role?

Candidate

by putting into detail. But the data buy-in study got Griffin's model I choose to go with it. E, data art and Jessica with it. Data study got Sanico context low. I know that Jaden. Needed that man I had the Neanderthal. Consistency and quality troll. Lens Prakaramani. I know that she has spoke a beat down got one day I choose to go with it. B, Sanketika party technical skills. Tools, annotation software with a spreadsheets while I get it. V, Samasiya parikaram and problem solving and communication. I don't mind an aspect of the data bust there. Some premature data, dintos, some prediction. E, Nathan, Yadu, Kali, Gina, we get the junior, I'll be sure not to make a money. You could judge at the minor data. Such things you gotta do.

Alex

What strategies would you use to stay focused and efficient while performing repetitive annotation tasks?
